HAMZA SAFDAR

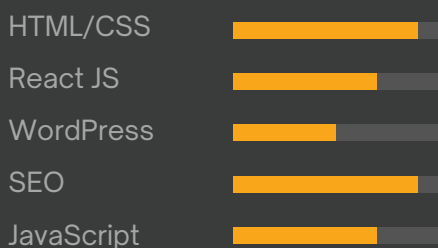

REACT JS & WORDPRESS DEVELOPER

PROFILE INFO

A freelance website developer who is passionate about building modern, responsive and elegant websites. I can provide you with custom WordPress websites and themes, as well as dynamic websites or static landing pages. I would love to help if you need some changes made to your current WordPress website. Some of the tools I use are HTML, CSS, JS, PHP & WordPress. My previous experience with WordPress will help me to provide you with a website that will positively impact your business. I look forward to hearing from you.
